## // about

**Senior AVP, Technology with 12+ years in banking and fintech.** At **Wells Fargo**, I design and build **Java Spring Boot microservices and REST APIs** inside core banking workflows, with Kafka for event streaming. I built the **Tokenized Deposit** application that settles transactions on the **Coreblock** blockchain, and work on Oracle core banking products (OBLM, OBPM) and ISO 20022 payments. Before moving into development, I spent eight years in quality engineering, designing Java automation frameworks from scratch for global banks. I deploy on **OpenShift, Azure and Google Cloud Run**, and use AI-assisted development daily (Claude, GitHub Copilot, Cursor, Devin), prototyping LLM workflows with LangChain and LangGraph.

## // featured_project

### Tokenized Deposit

Wells Fargo · Blockchain

Java · Spring Boot · REST APIs · Coreblock · On-chain Settlement

- Built a **Spring Boot application** that interacts with the **Coreblock** blockchain and **settles tokenized-deposit transactions on the chain**.
- Integrated the service with core banking workflows through REST APIs and Kafka events.

## // tech_stack

| | |
|---|---|
| > core | **Java** · **Spring Boot** · **Microservices** · **REST APIs** · Kafka · Python · JavaScript · JSON |
| > frontend | React |
| > blockchain | **Coreblock** · Corda R3 · Tokenized Deposits · On-chain Settlement |
| > cloud/devops | **OCP (OpenShift)** · Azure · Google Cloud Run · Jenkins · IBM uDeploy · Splunk · Maven · Gradle |
| > data | PostgreSQL · MongoDB · SQL |
| > testing | JUnit · TestNG · Rest Assured · BDD Cucumber · Selenium · Appium · UFT · SOAP UI · RIT |

## // experience

### Senior Assistant Vice President – Technology

May 2022 – Present

**@Wells Fargo**

Bengaluru, India · Hybrid

[ Java · Spring Boot · Kafka · React · Python · Coreblock · Oracle OBLM/OBPM · Jenkins · uDeploy ]

- Built the **Tokenized Deposit** Spring Boot application that settles transactions on the **Coreblock** blockchain.
- Design and build **Java Spring Boot microservices** and **RESTful APIs** inside core banking workflows, with Kafka for event streaming, React frontends and Python automation.
- Work on Oracle core banking products: **OBLM** (Liquidity Management) and **OBPM** (Payments).
- Automated CI/CD pipelines with **Jenkins** and **IBM uDeploy**.
- Use AI-assisted development (Claude, GitHub Copilot, Cursor, Devin) to speed up delivery; prototype LLM workflows with LangChain and LangGraph.

### Lead Architect Specialist

Dec 2020 – May 2022

**@Accenture**

Bengaluru, India · Remote

`[ Java · Spring Boot · OpenShift · BDD Cucumber · Rest Assured · Selenium · Jenkins ]`

- Designed a **Java automation framework from scratch** for Standard Chartered Bank, covering REST API, UI and regression layers, **cutting regression time from 1 day to 5 hours**.
- Built **Spring Boot mock servers** to decouple upstream dependencies; automated REST services with BDD Cucumber and Rest Assured.
- Implemented headless browser automation for the DDX Portal using the Page Object Model (PhantomJS, Gradle).
- Developed and configured AUTOSYS batch jobs using JIL scripts.
- Led offshore/onsite knowledge transfer and owned deliverables from test strategy to summary reports.

### Associate

Jun 2019 – Dec 2020

**@Cognizant Technology Solutions**

Chennai, India

`[ Core Java · RESTful Web Services · Selenium · AUTOSYS · Core Banking · DB Operations ]`

- Key contributor to **Discover e-Wallets** (Discover Bank US), from requirements gathering to go-live.
- Developed **TSP cash logic** for payment transactions in Singapore operations.
- Managed DB operations (image restore, REORG, RUNSTATS) using the Kiosk tool and supported production installs.
- Supported the South Africa production rollout, validating all major functionality within tight go-live timelines.

### Consultant

Jul 2017 – Jun 2019

**@Capgemini**

Chennai, India

`[ Core Java · Pega · SOAP UI · RIT · Selenium · Core Banking ]`

- Led automation testing for Standard Chartered Bank's **Discover Personal Loan** project over a 24-month engagement.
- Designed API tests and web-services automation with SOAP UI and RIT, working with the development team.

### Programmer Analyst

Jul 2014 – May 2017

**@Cognizant Technology Solutions**

Chennai, India

`[ Selenium · UFT · Core Banking ]`

- Automated tests for Discover Bank US with Selenium and UFT; validated team results and delivered client reports and daily progress summaries.

## // certifications

| | |
|---|---|
| ✓ **Microsoft Certified: Azure Developer Associate** (AZ-204) | Microsoft · Oct 2024 |
| ✓ **Microsoft Certified: Azure Fundamentals** (AZ-900) | Microsoft · Nov 2022 |
| ✓ **Full Stack Business Technology Architect** | Accenture · Jan 2022 |
| ✓ **Technology Architect** | Accenture · Aug 2021 |
| ✓ **L1 – Banking & Financial Services** | Industry |

## // education

**B.Sc. Computer Technology**

Sri Krishna Arts and Science College

Bharathiar University, Coimbatore · 2011 – 2014

## // achievements

- **Guiding Light** & **Pillar of the Month** awards, Accenture
- Customer appreciation letters for service delivery
- Ran training sessions that reduced team testing errors

## // writing

- LinkedIn explainers on **ISO 20022 payment messages** (PACS series)
- Spring Boot production lessons for 1,200+ followers
